His Decisions on Questions of Form and Order:

13. A Petition maintaining that the new Provinces in the Northwest should retain the control of the public schools and lands, and reflecting upon the action of the Premier in a certain matter, being read, Mr. Speaker decided that this paper is a Resolution and not a Petition and animadverts on the alleged action of the Premier *re* Autonomy Bills, etc., and is therefore clearly irregular and cannot be received, 234.

His Decisions on Questions of Form and Order:

12. A motion being made that certain petitions for Private Bills be read and received the same day as presented, Mr. Speaker declared the motion out of order, as no such motion could be made except upon a report of the Standing Orders Committee, 123.
13. Certain petitions for Private Bills being read, Mr. Speaker said that as the time for receiving petitions for Private Bills had expired the said petitions could not be received, 126.
14. A motion being made to authorize a Standing Committee to sit while the House is in session, Mr. Speaker ruled the motion out of order, not being recommended by the Committee, 215.
15. Objection being taken to an amendment moved to a motion, Mr. Speaker ruled that the mover of the amendment having exhausted his right to address the House before proposing the amendment, it could not be put, 230.
16. An amendment to the motion for the House in Committee of Supply being moved, objection was taken thereto, on the ground that it anticipated a notice of motion on the Order Paper; Mr. Speaker decided as follows:—
"The notice of motion on the Order Paper in the name of the Honourable Member for Wentworth purports on its face to deal mainly, if not entirely, with regulations and appliances as to cold storage, cold air and ventilating chambers in vessels. The motion now submitted by the same Honourable Member by way of an amendment to the motion that the Speaker do now leave the Chair for the House to go into Committee of Supply, is one dealing with the wide and general question of the safe transportation of Canadian perishable food products from the point of production to their ultimate market. I think this is not the same question, and does not anticipate a question already on the Order Paper for consideration by the House. I therefore rule that it is in order," 336.
17. On a motion for an Address to His Majesty for the purpose of amending the British North America Act regarding the payment of subsidies to the Provinces, an amendment was proposed regarding the representation of the Provinces, and objection being taken thereto on the ground that it was not relevant to the main motion, Mr. Speaker decided:—
"The motion before the House deals with one specific question, the scale of payments to be made by Canada to the various Provinces. The amendment proposes to deal with the representation of several Provinces. It seems to me that it is an entirely different question, and that it is not relevant. I would therefore rule the proposed amendment out of order," 348.
18. A further amendment being moved to the same motion (as in No. 17), to provide for the vesting of the minerals, lands, timber, etc., in the respective provinces, and objection being taken thereto on the ground of irrelevancy, Mr. Speaker said:—
"It seems to me that the whole question involved in the motion is the scale of payments to be made by Canada to the several Provinces, and that the question dealing with the land, so far as the Provinces are concerned, is entirely out of order. I therefore rule the proposed amendment out of order," 349.
19. An amendment being moved to a motion for the House in Committee of Supply; objection was taken to a certain part thereof on the ground that it was a repetition of a statement which had been formally denied by the member charged, Mr. Speaker ruled:—
"Under the circumstances the recital of such a statement is out of order," 369.
20. A member having made a motion as a question of privilege, Mr. Speaker ruled "that the motion is out of order, because the subject-matter it refers to has

already been dealt with, discussed and decided upon by the House"; and the said Ruling being appealed against was sustained by the House, 381.

21. On a motion for the House to go into Committee of the Whole to consider of an Address to His Majesty on the subject of the Provincial subsidies, objection was taken on the ground that the subject had already been discussed and decided during the present session; Mr. Speaker decided that the House having unanimously decided to reconsider the subject, the point of order was taken too late, and the House might go on and consider the Resolution for an Address to His Majesty, 513.

1907-8.

1. Waits upon His Excellency with the House in the Senate Chamber at the opening of the session, 2. At the close, 776. Upon the Deputy Governor during the session, 163, 262, 358, 383, 530.
2. Reports His Excellency's Speech from the Throne, 12.
3. Communicates the letters of the Governor General or of his Deputy, intimating the time at which he will open Parliament, 1. Will give the Royal Assent to Bills 163, 257, 357, 381, 530, 775.
4. Communicates the Report of the Librarians, 14. Of the Internal Economy Commission, 18.
5. Informs the House that the Clerk had laid on the Table the Reports of the Examiner of Petitions. *See* Bills 18.
6. Informs the House that he received Reports from the Supreme Court in Halifax appeal, 39. From Election Courts: Winnipeg, Brandon, Provencher, Portage la Prairie, Selkirk, Macdonald, Lisgar, Marquette, Souris, 2.
7. Reports that he had received notifications of vacancies, 8, 55, 72.
8. Issues his warrant for new writs of election, 8, 55, 72, 475.
9. His unavoidable absence from the House reported, 120, 188, 191, 193, 196, 209, 411, 415, 547, 548.

His Decisions on Points of Order:

10. A point of order being raised that the Government should not delay or refuse to answer a question, Mr. Speaker decided, "That this was not a proper point of order as the chair had no jurisdiction to order an answer to a question. The remedy of a member who may complain of delay or refusal to answer questions is by another form of procedure," 30.
11. A motion having been made for correspondence respecting the tobacco industry, and an amendment providing for uniformity of colour in tobacco stamps being proposed and objection being taken thereto, Mr. Speaker ruled that "the amendment is out of order, as being irrelevant," 75.
12. A member having in the course of a debate referred to certain documents before a Committee of the House, and a point of order being raised, Mr. Speaker ruled as follows: "That reference to the contents of public documents, in the possession of the Public Accounts Committee and concerning which the Committee had taken no action, or had entered upon any investigation or inquiry, would not be irregular, but any reference to the proceedings of the Committee or evidence before the Committee after inquiry had been entered upon and before the Committee reported, would be out of order," 389.
13. An amendment being proposed in Committee of the Whole to a Bill to authorize the construction of certain branch lines of railway, that provision should be made for the Government taking over the said lines at any time, and objection being taken thereto on the ground that it involved the expenditure of public money and should therefore be recommended by the Crown,

Speaker:—*Continued.*

His Decisions on Points of Order:—*Concluded.*

Mr. Speaker said that the point of order was not well taken as to this particular amendment, 434.

14. An amendment being proposed to a Bill, and objection being taken thereto on the ground that it anticipated a Bill on the Order Paper, Mr. Speaker ruled the amendment out of order, "the same being already on the Order Paper in the form of a Bill, ordered for a second reading," 564.
15. An amendment having been proposed to a Bill, and a point of order having been raised that it would have the affect of alienating public lands without the previous recommendation of His Excellency, or a Resolution of the House, Mr. Speaker decided as follows: "The amendment plainly contemplates the setting aside, appropriating and transferring to the Provinces of Alberta and Saskatchewan of certain of the Dominion Lands. In the last edition of Bourinot on Parliamentary Procedure, at page 628, in a foot-note, it is stated that since 1874, all grants of lands are initiated in the Commons. This is upon the theory that public lands are in the same position as public revenues. (*See* p. 627.) At p. 568 of the same work it is expressly stated that, "No cases can be found of any private Member in the Canadian Commons receiving the authority of the Crown through a Minister to propose a motion involving the expenditure of public money. No principle is better understood than the constitutional obligation that rests upon the executive government of alone initiating measures imposing charges upon the public exchequer." I must therefore rule the amendment out of order," 608.
16. A question having arisen in connection with a Bill to consolidate and amend the Acts respecting the Public Lands of the Dominion, as to whether in view of certain clauses therein, the Bill should not have been preceded by a Resolution and the signification of His Excellency's assent, Mr. Speaker said:—

"A question has arisen as to whether, in view of certain clauses in the Bill, a previous sanction of the Governor General should not have been obtained and announced to the House before its introduction, and such introduction preceded by a resolution.

"Having regard to the precedents in the House, I find that this has not been considered necessary. In the year 1883 a similar Bill was passed, and which now appears in the statutes for that year as Chapter 17, intituled: "An Act further to amend and consolidate, as so amended, the several Acts respecting the Public Lands of the Dominion therein mentioned." This Bill was introduced by Sir John A. Macdonald. No consent of the Governor General was announced at any stage nor was any resolution passed previously to the introduction of the Bill. This seems to be a precedent exactly in point. The Bill is a consolidating and amending Bill, and, in the case of such Bills, it is only when there are clauses imposing new burdens that it is necessary to consider these first in a Committee of the Whole. The object aimed at in such Bills is to give the old law a new and more convenient form. (*See* Bourinot, p. 645.)," 608.
